

Trig Speed

I Am: _____

Directions: Fill in the blanks to complete the unit circle. The first blank should be the radian measure of each indicated angle (written in terms of pi). Then fill in the exact x- and y- coordinates for each location. I have include the degree measures in the first quadrant and one set of answers to help get you started. Each set of blanks is worth 1 point, a perfect score 15. You can earn additional points for multiple perfect scores and fame for setting a time record. You have 3:40.
